PRA LISTSERVE USERS' GUIDE

May 8, 2020

READING, REPLYING, and SENDING MESSAGES

The PRA listserve is based on Google Groups and operates in much the same way as the previous system based on Yahoo Groups.

- 1. In your email inbox you will receive messages posted to the listserve, just as you receive any other message sent to you.
- 2. You read those messages in the same way you do now.
- 3. You can choose to delete listserve messages, save them, and/or Reply to All or Reply to Sender.
- 4. If you want to *send your reply to the entire group*, choose the option in your email system that lets you "reply to all".
- 5. If you want to *send your reply only to the person who posted the message*, choose the option in your email system that lets you reply to the sender only.
- 6. You can create a message on a new topic and send it to the listserve using this address:

pra-listserve@googlegroups.com

RECEIVING A DAILY SUMMARY OF MESSAGES

If you want to receive a daily summary of messages instead of receiving each message as it is posted, **you must first establish a Google account** and then change your viewing preferences.

To establish a Google account, see the instructions at the end of this Guide.

To change your message delivery options, go to the <u>Google Groups Homepage</u>. Select "My Groups". This will take you to a list of any Google Group that you are a member of. To the right of the PRA Listserve entry is a drop-down menu (see the image below). Here you can specify how you would like to receive new messages.
